General Customer Information - Corona

Dear valued customer,

the corona pandemic has been affecting our lives and our economy for months now and presents us with unprecedented challenges.

At IREMA we continue to respond to the ongoing situation adapting our processes and procedures. The safety and protection of our employees and fellow human beings is our first priority, as well as the continuity of our business to minimize any potential disruption on our valued customers. We have already taken extensive measures for this.

Nevertheless, we are always monitoring the situation in Germany very closely, observing the increasing challenges and taking the appropriate precautions.

All our production lines are still running, our supply chains are intact.

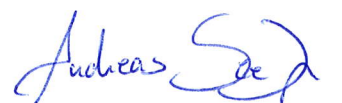

We at IREMA Germany are doing our utmost to continue order fulfilment as smooth as possible, but if we anticipate potential delays for some orders we will inform you on the new status as soon as we have a clear insight into the impact on our operations.

Please be assured that you will be informed in a timely manner and that we will keep you regularly updated about further developments.

We are looking forward to answer your questions in these difficult times.

Yours Sincerely

Dr. Anke Jung
Chief Executive Officer

Dr. Andreas Seeberger
President

Hellmuth Kohlmann
Managing Director
